*Program Insurance has an innovative, special distribution partnership with Lloyd's of London, a major force in the insurance market known for its diverse underwriting portfolio and global geographic reach.*

## Specialty Insurance Solutions

The prevalence of business commoditization in the insurance industry means that all too often one-size-fits-all policies are offered to M&A firms that **do not adequately cover** their actual professional services.

Program Insurance **specializes in customizing** E&O Insurance, Cyber Liability & Protection Coverage and General Liability policies for M&A firms.

Through our **underwriting capacity and exclusivity**, we offer extremely competitive pricing and broad policy forms.

**With decades of experience** working with owners of financial, analytical or consulting practices, we have the expertise to cover the unique professional services of your firm including:

- M&A Consulting
- Licensed Broker Dealers
- M&A Intermediary Services
- Business Valuation
- Management & Strategic Consulting

## Learn how we can improve the sustainability of your practice.

*"As an M&A firm and licensed broker dealer that also provides a host of related advisory services, finding an insurance intermediary that could offer reasonably priced coverage with the flexibility we needed for our business was important to us. We're appreciative of AM&AA's introduction of Program Insurance and Jim Frazier to us and can comfortably recommend them to others looking for specialty E&O coverage. We expect to be a policyholder for a long time."*
